

Hello Badgers!

You now have access to Handshake, **UW-Madison's new and improved tool for exploring jobs, internships, and career events!**

Whether you're a first year student or entering your senior year, Handshake can set you up for career success. We've preloaded your profile to help you get started. Please log in and complete your profile at <https://wisc.joinhandshake.com>.

To activate your account, click on the blue button that says "University of Wisconsin-Madison NetID Login" or enter your wisc.edu email address on the right-hand side of the page.

Before you do, you need to carefully read the [UW-Madison Student Terms of Use](#) – by creating a profile on Handshake you're agreeing to these terms about how to responsibly and ethically use Handshake's services. Finally, please note that **your profile's default setting is set to "hidden."** Employers, alumni, and students won't be able to see anything until you choose to unhide it.

If you have any questions please contact your school or college [career center](#).

Sincerely,
